

Company Profile

Pillar Systems Corporation is a **Minority & Woman Owned Business** and certified as a Small Disadvantaged Business under the SBA's 8(a) program. Our founding members with extensive senior management experience in business innovation and information technology formed this company in September 2002.

A common goal shared was to achieve success by conducting business with the utmost integrity, a commitment to providing the highest client satisfaction, and an honest respect for the individual. Our corporate vision is to become a global leader in leveraging information technology for the greatest business value for our clients.

This achievement will be accomplished by incorporating these three goals, to do what is right; for the business, client, and employee.

We install, troubleshoot, and support LANs, WANs, and campus networks connecting thousands of workstations and hundreds of file and data servers. We establish wide-area connectivity utilizing state-of-the-art components and integrating numerous platforms.

Our Mission

Our mission to our clients is to provide them with the very latest in technology, in order for them to conduct their daily business as it were intended. Our Senior Network Engineers, Analysts and Specialists are dedicated in working closely with our clients in order for us both Pillar Systems and its clients to succeed.

Building on our core skills and capabilities, we envision becoming one of the world's leading business and technology companies. This vision is being enacted by firmly planting our feet on the ground, assisting one customer at a time, and initially focusing on the many companies in the Washington Metropolitan area that need quality and dedicated extensions to their work forces.

Selecting the right consulting firm to trust and partner with is a delicate and difficult process. At the

Pillar Systems Corporation, we value each of our customers' visions, business plans, and continued success. Our pride is firmly joined in our customers' complete satisfaction. If you want a partner that can concentrate on your business needs and provide sound technology solutions, then the company to call is **Pillar Systems Corporation**.

Our information systems and technology solutions are helping speed and improve service delivery and giving decision makers' better information to make decisions.

Our Clients

The **Pillar Systems Corporation** past corporate experience spans a variety of industries, governmental agencies, not-for-profit and international non-governmental organizations, and small businesses. Some of our industry experience includes the legal, financial, insurance, telecommunications and healthcare marketplace.

Our founders have a proven track record for success and have provided valuable services to many Mid-Atlantic companies, Federal Governmental institutions, and several Central American entities.
